Conditions of approval

- Water service and water meter installations are subject to the Plumbing and Drainage Act 2002, Water Supply (Safety and Reliability) Act 2008 and Allconnex Water policies.
- For meter installations by quotation Allconnex Water supplies one (1) quote free of charge. Where an additional quote is required by the applicant, a fee will be charged for each additional quote. All quotes are valid for three (3) months.
- All water service and water meter relocations, following the original installation will be at the owner's expense.
- Standard water service and water meter installations for 20 mm to 50 mm diameters shall be installed in direct alignment with the water service conduit for road crossing installations, and for all other standard installations shall be installed 300mm to 500mm from the nominated side boundary.
- 20mm meter/meter box installations shall be installed at the location where the service line to the property boundary has been pre-installed by the developer. Requests for non-standard location installations shall involve a Meter Installation by Quotation.
- Applications in respect of class 2 to 9 buildings and group housing shall be submitted with a plan of the hydraulic reticulation system showing the exact location of service and meter.
- All fees must be received in full prior to commencement of works.
- All fast track service installations shall be installed within three (3) working days of receipting of the this application form, all fees and the Building Application. **Fast track only available on 20mm services where ready taps are pre-installed or where water main is located on same side of road.**
- Ready Tap and Ready Tap Plus Meter Box installations refer to items pre-installed onsite. Contact the developer for details of what has been pre-installed.
- Disconnection of the water service and water meter will be at the owner's expense.
- The owner grants permission to Allconnex Water to enter the property to undertake the requested works.
- Allconnex Water may enter the land concerned to effect any necessary alterations or repairs to the water service or water meter.
- Allconnex Water may shut off the supply of water, without notice, for such period as Allconnex Water deem necessary for repairs, alterations or additions to the water supply system. Prior notice will be provided wherever possible.
- Allconnex Water may cut off the water supply to the land where an offence is committed under the Water Supply (Safety and Reliability) Act 2008.
- Large water services shall generally be installed in accordance with Allconnex Water standard drawing No. 59640.
- Where a quotation contains insufficient information, the quotation will not proceed until the applicant has provided the required information.
- The Class A+ recycled water supply will be locked off at the meter until the Plumbing Final inspection. A Gold Coast City Council Plumbing Inspector will complete an audit of the Class A+ recycled water system at the Plumbing Final inspection, where the Plumbing Inspector will remove the lock as a part of the Plumbing Final inspection process. Where a successful audit occurs the lock will not be replaced.
